

Things to Do to Advance Your Career

CHECKLIST

○ Set clear, intentional goals

Develop a roadmap for your career.
Define what success looks like for you.

○ Never stop learning

Industries change. Technology evolves.
The job market is constantly shifting. The people who continue to grow are the ones who invest in their own education

○ Become the person who gets noticed

Be strategic in your interactions. That means picking your battles, and striving for both individual and team improvement.

○ Advocate for yourself

Too many talented professionals are underpaid, underpromoted, and overlooked because they assume their work will speak for itself.
Your work doesn't have a voice - **you do.**
